React				

PROJECTS

Orchestrate

<https://github.com/zmatthews33/orchestrate> | <https://orchestrateapp.herokuapp.com/>

- A MERN stack application designed specifically for artist managers/agents that makes many everyday tasks easier -all in a dashboard.
- Designed wireframe, styled, built and tested components, linked models to components
- Technologies used include React, NodeJS, Express, MongoDB, SCSS, PassportJS, BCrypt, JSONWebToken, MomentJS, Songkick API, Bandsintown API Hooks, Context API, Mongoose, mLab, deployed to Heroku

Google Book Search

https://github.com/zmatthews33/google_book_search | <https://google-book-search-react33.herokuapp.com/>

- Full stack web application that allows a user to search and store books to a personalized list.
- Technologies used include ReactJS, React Router, Axios, Node,Express, MongoDB, Mongoose

Simpsons Memory Game

<https://github.com/zmatthews33/clicky-game> | <https://simpsons-clicky-game.netlify.com/>

- A basic, fun React-based memory game using the Simpsons characters. See how many you can remember, and try to beat your best score.

EXPERIENCE

Art Department Lead

2016 – Present

Self-Employed/Freelance

Bringing the Production Designer's designs and vision to life. Breaking down the script to identify all props required and sourcing them economically or overseeing assistants in this task. Helping practically achieve the creative vision of the sets. Working as a project manager for those working in the art department. Overseeing the creation, dressing and striking of the sets. Continuously solving problems on-set quickly and creatively.

Key Accomplishments:

- Several of the TV shows, music videos and commercials are listed at <https://www.linkedin.com/in/zmatthews/>
- Currently working for CBS on *Tell Me A Story* (Season 2)
